

Assignment 4: Style Lists and Fonts

Requirements

- Change the font-family of the whole page to Arial / sans
- Give your header color, and center it using text-align
- Give your first paragraph a 50 pixel indentation
- Change your second paragraph to uppercase using text-transform
- Make your ordered list upper-case Roman numerals using list-style-type
- Turn your unordered list into a picture list using list-style-image
- Change the color of your horizontal rule
- Use the tag to change the font family AND color of one word

Basic tags and CSS used

```
<span></span>  
list-style-type: list-kind;  
list-style-image: url(imagename.end);  
background-color: name or number;  
width: ###px;  
margin-left: auto;  
margin-right: auto;  
text-align: center;  
font-family: Arial,
```
