

Flash Clicking Slideshow

Requirements: Create a slideshow with at least ten pictures. These pictures should be in the same place and be the same size. You will also have four buttons. These need to be “First” “Previous” “Next” and “Last”. The buttons should be aligned and neatly spaced. They should do as they say. ALSO, you need a caption for each picture. The caption should change for each picture. There must also be a title on the page that does not change.

New Tools

Loading Bitmaps

Load a series of pictures into the library

Swap Bitmaps

Right-click on the picture. Select “Swap Bitmap” to switch out the pictures

Align multiple

Open the “align” toolbar under “windows” You can align items from here

Distribute multiple

On the same window as “align” use the distribute to space buttons

Review

also use prevFrame();

Actionscript

```
stop ();
```

```
// button functions
```

```
function clickBtnLast(evt:MouseEvent) {  
    gotoAndStop(13);  
}
```

```
function clickBtnNext(evt:MouseEvent) {  
    nextFrame();  
}
```

```
// button listeners
```

```
btnLast.addEventListener(MouseEvent.CLICK, clickBtnLast);
```

```
btnNext.addEventListener(MouseEvent.CLICK, clickBtnNext);
```

Grade

Minimum of 10 pictures, all aligned	5
