

Name _____

Period _____

Microscope Practice

1. Start by getting a hair sample from you and your partner. Compare the two samples ON LOW POWER. Draw what you see. Then switch to high power and draw what you see.

2. Draw and label at least 3 parts of the microscope.

3. Rip a tiny bit of newspaper and look at it under the scope. What does it look like? (Draw)

4. Choose one of the prepared slides. What is it labeled?

5. (In written words) What does the prepared slide look like under HIGH power?

6. What is the proper way to unplug a microscope? _____
